

# Open Up to a New Way of Living

[skyewallsbywws.com](http://skyewallsbywws.com)

# Change the Way You See Your World

A view you never knew existed. A standing invitation to connect with the outdoors. Sunlight and fresh air. Moving glass walls from Skye Walls don't just transform your home, they redefine the way you live in it.

## A Reimagination of Space

Whether they're blending the indoors with the outside, expanding living areas, or providing taller and wider views, Skye Walls' moving glass walls revolutionize how you experience your home, in ways you never thought possible.

Open up the glass walls completely to create a dramatic indoor-outdoor experience perfect for entertaining guests. Let in fresh air while you relax on the patio. Enjoy a wall-size view of a morning rain shower without feeling a drop. It's your world, but now with a whole new perspective.

- View to the outdoors 365 days a year
- Loads of natural light
- Great for get-togethers
- Increased airflow and circulation
- Rooms appear more spacious

## We Got This. We Got All of This.

When you purchase a moving glass wall from Skye Walls, you get an experience unlike any other. We take care of every part of the process, from manufacturing your custom product to installation and cleanup. That means you can start enjoying your new way of living faster — in most cases, within a week of product delivery.

**Support that Has You Covered**  
In addition to your free consultation, you'll get support from on-site experts who can answer questions before you put in your custom order. And we'll stay in touch throughout your project.

**We Stand Behind Our Products Because We Are Our Products**  
Skye Walls is a division of Western Window Systems, a designer and manufacturer of moving glass walls and windows in Phoenix.

**Pro Performance**  
Our handpicked engineers, installers, and general contractors receive rigorous screening and training. Their knowledge of construction and building materials, help your project stay on track and give you peace of mind.

**Financing that Fits Most Budgets**  
Take advantage of special financing programs with such flexible terms as deferred payments and low minimum monthly payments. Each program is an affordable way to help you fit your Skye Walls project within your budget.

**An Industry-Leading Warranty**  
Your moving glass wall from Skye Walls is covered by a lifetime warranty on glass and installation and a 10-year warranty on materials, including locks and hinges.

# What Makes a Skye Walls Moving Glass Wall?

When you choose a moving glass wall from Skye Walls, you get the same kind of high-quality, long-lasting product preferred by architects, designers, and builders of homes across the country. No other moving glass wall product rewards you in so many ways.

- Wide glass panels provide more light and maximize views
- Heavy-duty hardware allows doors to move easily and smoothly
- Thermal, water, air, and structural testing help protect your home
- Concealed locking system provides additional security
- Contemporary design blends easily with a wide variety of home styles

### Climate-Ready Glass

Every glass wall from Skye Walls comes standard with high-performance low-E 366, argon-filled dual-pane glass that reflects heat while allowing light to pass through. When compared with many other glass types, high-performance low-E glass:

- Promotes overall energy efficiency
- Lowers outside noise
- Improves security

# The Faces of Skye Walls

Choose a contemporary-looking aluminum sliding glass door with stacking panels or a folding glass door with simulated steel grids in the style of an urban loft. There are vinyl options, too. Each is available in a near-infinite variety of finishes, sizes, and configurations.

# Sliding Doors

Also called multi-slide or panoramic doors, our sliding doors feature large panels that slide open and stack or tuck away out of sight to connect the indoors with the outside. Panels can move in one direction or part in the center.

Sliding Door Open

## Material Options for Sliding Doors

### Aluminum

Used in contemporary living spaces, it can be finished in a variety of colors and does not require regular maintenance.

### Vinyl

The most economical solution to transform your home, it stands up to the elements and is nearly maintenance free.

## Classic Aluminum Sliding Door

Smooth operation meets clean design.

### Features

- Low-E dual pane argon-filled glass for energy efficiency
- Wide panels for more light and glass
- Panels can move in one direction or part in the center
- Panels can stack within the frame or conceal within a wall pocket
- Stainless steel ball bearing rollers for easy operation
- Concealed multi-point locking system
- Contemporary hardware
- After-market screening solution

## Performance Aluminum Sliding Door

Energy efficiency and strength.

### Features

#### Everything in Classic, Plus:

- Available in bigger and taller sizes
- Design pressure (DP) rating of 50 for durability
- Compliant with California's rigorous Title 24 requirements

## Simulated Steel Aluminum Sliding Door

The look of steel but more affordable and energy efficient.

### Features

#### Everything in Classic and Performance, Plus:

- Beveled glass stops
- Simulated divided lites to emulate a putty glaze

## Vinyl Sliding Door

Smooth operation at a value.

### Features

- Low-E dual pane argon-filled glass for energy efficiency
- Wide panels allow for more light and bigger views
- A built-in self-drainage weep system to help safeguard against water intrusion
- Color-matched hardware
- Concealed locking system
- Optional flush-mounted handle so panels easily slide past each other
- After-market screening solution

# Folding Doors

Sometimes referred to as bi-fold or accordion doors, our folding doors slide open and feature panels that fold up against a wall for a true indoor-outdoor experience. Available with a swinging access door for everyday operation. In contemporary aluminum.

Folding Door Closed

Folding Door Open

## Material Option for Sliding Doors

### Aluminum

Used in contemporary living spaces, it can be finished in a variety of colors and does not require regular maintenance.

## Classic Aluminum Folding Door

Smooth operation meets clean design.

### Features

- Low-E dual pane argon-filled glass for energy efficiency
- Narrow siltelines for additional glass and light
- Stainless steel ball bearing rollers for smooth operation
- Concealed multi-point lock for additional protection
- Contemporary hardware for a sleek aesthetic
- Optional single swinging access door for everyday use

## Performance Aluminum Folding Door

Energy efficiency and strength.

### Features

#### Everything in Classic, Plus:

- Available in bigger and taller sizes
- Design pressure (DP) rating of 50 for durability
- Compliant with California's rigorous Title 24 requirements

## Simulated Steel Aluminum Folding Door

The look of steel but more affordable and energy efficient.

### Features

#### Everything in Classic and Performance, Plus:

- Beveled glass stops
- Simulated divided lights to emulate a putty glaze

## We Do Pivot Doors, Too

Boldly dramatic, a pivot door from Skye Walls may be the most impressive way to customize your home's entryway. Like our moving glass walls, it maximizes views and lets in light. And because it's aluminum, it's low maintenance. Ask your Skye Walls expert for more details.

# It's Good to Have Options

Available in a multitude of colors, handles, and floor sills, sliding and folding glass doors from Skye Walls offer infinite ways to customize.

## Handles for Sliding Doors

### Flush-Mounted

The flush-mounted handle's clean, narrow design allows panels to easily slide past each other or into a pocket. Available in brushed nickel or black for aluminum. Vinyl only in black.

### Premium

Our premium handle features a one-piece design and comfortable grip. Aluminum finish choices are available in brushed nickel or black. For non-pocketing Classic sliding doors only.

### Contemporary

The square-shaped contemporary handle is available for non-pocketing Performance and Simulated Steel sliding doors. In brushed nickel or black for aluminum.

### C-Pull

For a consistent look, on vinyl door with standard handles, we match the hardware color to the frame.

## Handles for Folding Doors

### Dallas

Located on the swinging panel, making it convenient for everyday use. In brushed nickel or black.

### D-Pull

Aids in opening and closing the door. In stainless steel or black.

### Inactive Lock

Secures the door panels. Available in brushed nickel or black.

## Designer Aluminum Colors

## Standard Aluminum Colors

## Vinyl Colors

## Floor Sills

### Water Barrier Sill

Designed for effectiveness in all climates, an interior leg and weep system help to safeguard against water intrusion.

### Flush Sill

When ease of entry is more important than performance against the elements. Lines up with most interior flooring.

### Thinline Sill

Ideal for projects where a continuation of flooring from the inside to the outdoors needs to appear virtually seamless. For sliding doors only.

## Rollers

Rolling hardware includes a standard 1.81" size and our 3" roller for handling larger and heavier panels.

## What About Screens?

An aluminum frame panel screen provides optimal ventilation and protection from outside pests. Not available for folding doors and some sizes of sliding doors.
